T-BOX

NIU TOILET is the first manufacturer of intelligent toilets in America, a division of COMAC CORPORATION, established since 1984. We have brought together the best engineers to create a complete line of bathroom fixtures to meet your requirements.

Portable toilets offer a systematic disinfection system by ULV, non-contact hand cleaning with drying equipped with a HEPA filter.

Different options are available depending on the model.

We have the largest distribution network across America to better serve you.
